Champion Theatre

Coming Next Week, March 2-3

"CHANG"

"Chang" undoubtedly belongs in the category of great pictures, if only for the kick you get from it. This may not be a test of art, but it certainly is of entertainment. Nothing in the cinema line to date can beat this film for novelty, sustained interest and exciting incident. Nothing can approach it for surprise. If you are an old picture fan and think you know what the movies can do, go see "Chang." Go anyway.

Also Comedy, "Cool Off," and Paramount News.

THIS WEEK

"A HERO FOR A NIGHT"

Also Chapter 9 "The Collegians" and Paramount News.

Coming Next Wed., February 29

"OPEN RANGE," by Zane Grey, and Country Store Nite.

Local and General

Nellie McClung, Feb. 27.

The name of the supplementary revenue tax is to be changed. "A rose by any other name would smell as sweet."

The ditch gang are busy hauling timber and other material from Travers for a new flume under construction.

W. F. Bozarth accompanied his son, Billy, to Calgary on Monday evening's train, the latter suffering from appendicitis.

Country Store nights at the Champion theatre are proving a popular innovation. It is understood this feature will be repeated.

Oscar Hagg has always been noticeable as an upstanding man, but since he acquired his new Buick he actually leans backwards.

Billie Bozarth was operated upon as soon as he arrived at the hospital in Calgary on Monday night and is doing extremely well.

J. M. Moffatt is still incapacitated with his broken collar bone. The fracture was a splintered one and the knitting process is slow.

K. R. McLean, 210-213 Herald Bldg., Calgary, sight specialist wishes to announce that he will visit Champion, at the Drug Store Friday, March 2, 1928.

While the day was cold there was a good attendance at Matt Sheldon's sale on Wednesday and good prices were realized. A Hopkins was the auctioneer.

Mr. and Mrs. A. J. Ruggles, of the Guess Ranch returned from a two months visit to their former home in Minnesota on Tuesday, after a splendid vacation.

Whooping cough is prevalent east of Snake Valley. A little child of Mr. and Mrs. Royal Ruggles is very ill, its life having been despaired of on two occasions.

Champion Chatter has already outgrown the space originally picked out for it and will now be found on the back page larger and brighter for the change.

The winner of the balloon dance at the O.E.S. dance last week should have been Mrs. Harry Smith instead of Mrs. Dean Smith, as reported in The Chronicle.

Geo. Dupue is the first man ever heard of who ran a newspaper one week and was able to buy a Buick car on the proceeds. Who said the day of miracles was past?

The P.T.A. is pleased to have been fortunate as to have secured Mrs. Nellie McClung for an address at Champion. It remains for the public to show its appreciation by turning out for the occasion in a manner to emphasize that good things are what the people are looking for. The place is Campbell's hall and the time Monday evening, Feb. 27th. The subject of Mrs. McClung's address will be "The Romance of Everyday Life."

An income tax imposed by the Alberta legislature would appear to be a possibility of the near future, having been recommended by the tax commission headed by Dr. Tory, of the University of Alberta. Why not cut out all the subterfuge and increase the supplementary revenue tax. Nothing would interest the people of the province in what the legislature was doing as an increase in the direct taxation.

Local Bonspiel Nears Completion

C. McLean has the outstanding risk in the local Bonspiel, which is nearing completion as we go to press. So far he has not been defeated and is in the semi-finals of the first event and the finals of the second event. W. F. Bozarth, P. M. Patterson and B. Hummel are the remaining risks in the fours of the first event. A. W. Jopling and Mr. Duncanson are in the fours in the second event and the consolation is nearing its end.

P. Sweeney, an old-timer in this vicinity, has been a visitor here recently, and is renewing many acquaintances.

Improvements and overhaul in the Savoy hotel are making rapid progress and when completed will be generally appreciated by the travelling public.

Bob Tyler is out for a big share of the implement trade this year and has (very sensibly we think) chosen the Chronicle to read the fortunes of the vicinity. Note his advt. in this issue.

"Chang" is a tremendous thriller. It exceeds to one of the greatest climaxes ever "shot" by a cameraman. Its pulsating drama is the vivid pictorial account of primitive man pitting his ingenious brain against the treachery and strength of the jungle. "Chang" is a tremendous picture.

A hearty invitation is given to all curies and those interested in "the roarin' game" to attend a Cavers' Service on Sunday evening next in the United church at 7.30. The rinks who played with such distinction at Banff and Charesholm are requested to sit together. The club wishes publicly to add her tribute to their fine sportsmanship and further to commend the excellent community spirit which is characteristic of the local bonspiel.

As a result of the annual meeting of the ratepayers of the Municipal District of Hornum on Saturday last there will be two faces missed when the new council meets. Both H. E. Smith and C. E. Anderson declined re-nomination and were replaced by P. P. Peterson and Ed. Griffin. H. E. Johnson was the only nominee in Division 6. The bylaw to make the district a collecting agency for school districts was discussed quite extensively. The meeting was adjourned to a date when the financial situation would be definitely settled. There was a good turnout to the meeting.

One of the most enjoyable social functions of the season was held in Campbell's hall on Thursday evening, Feb. 16th, when Mrs. G. F. Dow and Mrs. F. Gottenburg were joint hostesses to some seventy of their friends. Progressive whist captured attention until midnight when lunch was served and preparations made for dancing, the latter continuing until an early hour. The prize winners in whist were Mrs. W. Ulrich and H. E. Johnson, while Miss Fernie Bond and Mr. C. E. Anderson captured the consolation. H. E. Johnson also distinguished himself as an orator on this occasion. The hall and tables were suitably decorated for the occasion and one and all the guests voted this to have been decidedly the most enjoyable event for many moons.

The Tax Collecting Question

The explanation of the working of the system of the collecting of school taxes by the municipality made at the annual meeting of the ratepayers of Harmony by the municipal auditor was not highly enlightening. Mr. Williams was offered the problem of a school which owed the bank \$200.00, the government \$350.00 and had not a cent in the treasury, but he made no attempt to offer a solution. While it has always been pointed out that the municipal district is the much better collector of taxes, if the secretary treasurer of the school district in question was an exceptional collector it would, under the proposed new system, owe the municipal district \$500 instead of having the amount divided. But the municipal district is not only a better collector of taxes, it is also a better and stronger borrower than the school district and the chances are that the condition quoted would never result if the municipal district was the original collector and disbursing in the case, because, as a rule, the weakness of the school district secretaries lies in the fact that the busy season in tax collecting coincides with the busy season in their regular occupation. In Manitoba the municipalities have always collected the school taxes and a suggestion to adopt the system of local tax collectors would be regarded as a monstrous joke, and really it is a joke in a community as well organized as this. What is difficult to understand is why the department simply recommends a change and urges the submission of a bylaw instead of legislating the change into effect. That is what should have been done years ago.

NOTES AND COMMENT.

The local hospital has been one of the big events of the week and, while one postponement of games was found necessary to complete it, on the whole very satisfactory ice conditions prevailed. This hospital has always been a very valuable asset to the curling club, as many of the present members threw their first rock at a local hospital. It is a matter of regret that it should be considered necessary to rush this event on without notice. The result of this method cannot fail to impair the principal object of the hospital, which has always been to induce non-curlers to take part. If reasonable notice of the event was given many people would be able to make suitable arrangements to get away from their regular occupations for the two to three days necessary who cannot do so at a few hours notice.

A simple and yet very useful little account book for farmers has been issued by the Dominion Experimental Farms. This may be procured from the publications branch, department of agriculture, Ottawa,

for the nominal charge of ten cents. This little book, while simple is a great help in advance of keeping no accounts whatever. Now is a good time to take an inventory and start keeping accounts.

A considerable deficit in 1927 is overshadowed by Premier Brownlee, in maintaining his stand in regard to old age pensions, which will not be considered until next year.

We must thank those who have responded to requests for the payment of subscriptions. It is not a pleasant thing to keep constantly reminding readers of their liability, but there is not the slightest doubt that in very many instances it

Flying Comes Here To Stay And Conquest Of The Air Goes On Apace In Canada

Canadian fliers who may be anxious to attempt a transatlantic flight this summer will have much difficulty in securing permission from the federal government, because trans-oceanic hops are frowned upon in the Dominion on account of the aerial tragedies of 1927.

Legislation will be passed at the present session whereby licenses will have to be secured by pilots desiring to fly across the Atlantic. It will be extremely difficult to secure such a license.

Flying in the Dominion last year was more costly in dollars and in human life than ever before, no fewer than eleven pilots having been killed in flying accidents and yet no records were attempted or set by Canadians.

Flying has come to Canada to stay. It was born of the war when William Avery Bishop, V.C., won every decoration possible for conspicuous gallantry and devotion to duty in shooting down seventy-two enemy planes.

In these days of peace the conquest of the air goes on apace in the Dominion. The young men who reaped the whirlwind in the war returned to Canada to earn their living as civilians. But the spirit of war work survived, and in a small but seasoned organization called the Royal Canadian Air Force the traditions of aerial navigation were carried on.

The young army, trained in war days, looked to the civil department of government for employment. They were needed and within two or three years of the close of the war many of them in the Royal Canadian Air Force, detecting forest fires, locating smugglers on the boundaries, and mapping out by photography the vast area of the hinterland.

Canada was quick to establish the necessary code of law for navigation of the air, and today the Dominion is safeguarded by a set of strict regulations governing the licensing of all mechanics, pilots, air harbors, international flying signals and the inspection of aircraft.

The most conspicuous work done during the recent crowded years of flying history has been the survey work in which Canada has led the world. Last year more than 400,000 square miles of Canadian territory were photographed and mapped with an accuracy which would have required years and millions of dollars if done in the old way.

Parliament acknowledged Canada's future in the air was assured by providing \$5,000,000 last year for air development. Cities are being encouraged to provide future air harbors, technical advisers from Great Britain have visited the Dominion to make recommendations for the future linking of the Empire by airways, and the postoffice department is taking the initial steps toward what will be an Atlantic-to-Pacific air route.

Red Tape In France
A girl living in Epinal, France, has been refused a marriage license because she has never been officially born. She applied for a birth certificate, which is required before a marriage license can be issued, and the officials searched the records, but could find no trace of her birth having been entered. Her parents had apparently neglected to register her birth. She was informed that officially she was not born, and the wedding has had to be postponed.

Passenger "Furter," Is This A Through Train?

"Email, can you hear the murmur of our souls?"

"No, you are mistaken. It is my stomach. I have indigestion."—Fleegende Blaetter, Munich.

W. N. U. 1721

Fisheries Of Alberta

Smaller Catch Is Reported For 1927

Over Previous Year

The fisheries of Alberta were not so active last year as in 1926, when a catch of 75 million pounds netted the fishermen \$749,000, an increase over 1925 of \$290,000. Estimates of the total 1927 catch are placed at about six million pounds, with prices running about the level of 1926. The Alberta fishing activity depends largely on the production of the Manitoba lakes. The chief markets for the fish are New York and Chicago, and the Manitoba fishing companies fill these needs. If the Manitoba catch falls off, greater activity is necessary in Alberta, but if the Manitoba fisheries are active, Alberta is left with a smaller demand to fill.

During the past year a whitefish hatchery was built on Lesser Slave Lake, which, with Lake Athabasca, are the chief sources of supply.

Ship Carries Air Taxi

Passengers On West Indies Cruise May Take Side Trips In Plane

Passengers who sailed from New York on the North German-Lloyd liner Columbus for a cruise to the West Indies may, if they wish, take side trips by plane. When the vessel docked from Bremen, it carried between the funnel a huge silver and black Junkers hydroplane.

The pilot of the plane is Walter Hagen, and the pilot, but German airman. On the metal sides of the air-taxi is lettered its name, Globs Trotter. Hammond declared that fares for the air-cruise were about \$1 a minute.

Canada was quick to establish the necessary code of law for navigation of the air, and today the Dominion is safeguarded by a set of strict regulations governing the licensing of all mechanics, pilots, air harbors, international flying signals and the inspection of aircraft.

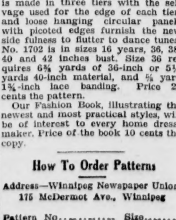

The most conspicuous work done during the recent crowded years of flying history has been the survey work in which Canada has led the world. Last year more than 400,000 square miles of Canadian territory were photographed and mapped with an accuracy which would have required years and millions of dollars if done in the old way.

Parliament acknowledged Canada's future in the air was assured by providing \$5,000,000 last year for air development. Cities are being encouraged to provide future air harbors, technical advisers from Great Britain have visited the Dominion to make recommendations for the future linking of the Empire by airways, and the postoffice department is taking the initial steps toward what will be an Atlantic-to-Pacific air route.

Red Tape In France

W. N. U. 1721

Co-Operation Between Railways

Two Transcontinental Systems Will Stand Together In Promoting Welfare Of Dominion

Wholehearted co-operation between the Canadian Pacific Railway and the Canadian National Railways is assured in everything that will make the greatness of Canada, E. W. Hearty, president of the C.P.R., and Sir Henry Thornton, president of the C.N.R., declared at Engineer's Club, Montreal.

The occasion was a presentation dinner to the staffs of both roads, who contributed to the success of the second (triennial) Empire Mining and Metallurgical congress, held last year in Canada.

"Something has been said of the co-operation between the two railways during the Mining congress," said Mr. Hearty, "and I have been talked of as though it was something to marvel about. It is not. In anything that is of common interest to the country and the railways you will, I think, be able to find the Canadian National and the Canadian Pacific Railways joining in support of that effort, whatever it may be."

On the question of co-operation, Sir Henry Thornton had the following to say: "Let me say that we in Canada are too few in numbers to guard, and too poor in capital to fight, each other. The progress of our country will be best assured by the co-operation of all institutions within our bounds and by the joining of each section of our country in promoting the welfare of the Dominion. We shall stand shoulder to shoulder with the Canadian Pacific Railway in the protection that is necessary to preserve the revenues of our great transportation system."

Hinders Trade With India
H. R. Poussette, Canadian trade commissioner at Calcutta, writes that one factor that militates against the expansion of Canadian exports to India is the reluctance of Canadian manufacturers to send representatives to visit the markets of India and Ceylon and the Middle East generally. Similar complaints have been made by other trade commissioners.

If Australia could be transported into the Atlantic Ocean, it would fill up all the space between the United States and Great Britain.

For Better Understanding

Sir Hugh Denison Deprecates War Talk In Britain and U.S.

Sir Hugh Denison, former commissioner for Australia in the United States, pleading before the English Speaking Union for a better understanding between the United States and Great Britain, cautioned his hearers not to take Mayor Thompson of Chicago seriously.

Recalling the Chicago mayor's threats to burn school books and his other anti-British attitudes, Sir Hugh declared that Mr. Thompson no more represented the U.S. feeling than A. J. Cook, secretary of the Miners' Federation, represented England.

The former commissioner also made reference to Rear Admiral Plimmet's recent speech on the possibility of war between Great Britain and the U.S. and urged the people of both countries to weigh such matters in the proper balance.

He urged steps to bring about closer relations through visits of statesmen, mentioning particularly Senator Borah and industrialists of the two countries.

"They would find much in common," he said, and by exchanging views it would do a great deal in smoothing out the little misunderstandings which arise occasionally."

Declares Columbus Was Buried In America

Ashes Sent To Mexico In 1542 Says Spaniard

Where is Christopher Columbus buried? That is the question.

Historians have been telling the world that his ashes are buried in Seville, Spain. But Senor M. A. Cocco, who attended the Pan-American road convention, takes issue by asserting the remains are buried in America—specifically under the great cathedral in Santo Domingo City.

Senor Cocco says that the wife of Diego Columbus, son of the discoverer, petitioned Charles V. to remove the ashes of the discoverer from Valladolid, Spain to Santo Domingo. Permission was granted for the remains to be moved to Hispania America, according to his story, and in 1542 burial was effected under the altar of the cathedral in Santo Domingo City.

Many a man's financial goose has been cooked in a Jack pot.

Canadian Sheep Breeders View The Future With The Utmost Confidence

Benefit Of Inoculation

Effect Of Inoculation Shown On The Yield Of Legume Crops

At several of the Experimental Farms in Canada tests have been made on the effect of inoculation on legume crops which yield legume bacteria were absent from the soil or present in insufficient numbers, and the results are summed up in a pamphlet on "Legume Inoculation" written by the Dominion Agricultural Bacteriologist. In some cases the increases in yield resulting from inoculation were comparatively slight, but in many instances they were strikingly large.

At the Kapuskasing Experimental Station two years ago seedling, the inoculated alfalfa seed produced 3 tons, 1,465 pounds of dry matter against a ton and 667 pounds from untreated seed. Results at the Beaveridge, Alberta, Station were much more striking. On acreage clipped in the year of seeding on that station the aggregate crop of two years from inoculated red clover seed was 4,268 pounds per acre as compared with only 325 pounds from uninoculated seed. For alfalfa the comparison was 4,268 pounds with 640 pounds and for sweet clover 3,200 pounds with 1,520 pounds per acre.

The pamphlet may be obtained from the Publications Branch, Department of Agriculture, Ottawa.

A Valuable Fertilizer
The Relative Value Of Fresh and Rotted Manure

Weight for weight rotted manure is more valuable than fresh manure as it contains proteins in a more available condition. However, according to a new bulletin on "Manure and Fertilizers" written by F. T. Shutt, Dominion Chemist, and L. E. Wynn, Dominion Entomologist, generally speaking the benefits, especially of the manure, are greater when the manure is still fresh than when it is rotted.

There are times when the rotting of manure is an advantage. It is well suited for light and sandy soils and it improves their physical condition by opening them to the air and making them more friable. Fresh manure is also preferable for crops which have a long season of growth. With crops having a short period of growth and where early marketing is a consideration, rotted manure with its quickly available plant food is best.

It should be remembered that when rotting manure in a large heap the mass should always be kept loose and turned over frequently to prevent in order to reduce losses to a minimum. The bulletin may be obtained from the Publications Branch, Department of Agriculture, Ottawa.

Flower Improves With Age
Carnation Exhibited At London Show Changes Color Instead Of Fading

A new carnation named Fading which improves as it gets older was one of the exhibits at the Royal Horticultural Society show. It is a medium-sized bloom, mure in color, striped with heliotrope. "As it becomes older," the grower said, "instead of fading, the tone changes to a delicate French grey, even more beautiful and artistic than its original coloring."

Another feature of the show was a little flower, Daphne Indica, which is said to be the sweetest smelling in the world.

Cause For Worry
Mrs. Jones found Mrs. Smith, the aviatrix's wife, in tears. "Whatever is the matter?" she asked, anxiously. "I'm worrying about Jim," said Mrs. Smith. "He's been trying all week to kill our cat, and as a last resource he took her up 5,000 feet in his plane. He said he would drop her over the side."

"What is there to worry about?" "Lots," exclaimed the frantic woman. "Jim isn't home yet, and the cat is."

Lady (intervening) prospective help: "I may tell you that we are vegetarians."

Girl (anxious to be engaged): "I've attended that church all my life. mum."

The movie "Annie Laurie" was filmed in England and Scotland.

"My Old Kentucky Home" was composed by Stephen C. Foster.

With 120,000 more sheep in Canada than a year ago, George Gordon, of Oak Lake, Manitoba, president of the Canadian Sheep Breeders' Association, at the annual meeting in Toronto, viewed the future with every confidence for a greater increase in sheep population during the year. He spoke particularly of the conditions in Manitoba, where 40 years of what raising had resulted in very weedy land, which required the use of sheep to clean it up. For this reason, 120,000 sheep more than the present number could be successfully employed in Manitoba at this work. A committee had been appointed to interview the board of trade and the land and mortgage companies in Winnipeg with a view to soliciting their support to encourage the leasing of sheep on their lands to clean the land. He outlined the good results of the four sheep sales in Manitoba. The first sale was held in the spring of 1926 and the second sale was held in the summer of 1926. The third sale was held in the fall of 1926 and the fourth sale was held in the spring of 1927. The results of the four sales were as follows: The first sale resulted in 120,000 sheep being sold for \$15.50 a head. The second sale resulted in 120,000 sheep being sold for \$15.50 a head. The third sale resulted in 120,000 sheep being sold for \$15.50 a head. The fourth sale resulted in 120,000 sheep being sold for \$15.50 a head.

Mr. Gordon urged every sheep breeder to ship his wool to the Canadian Co-operative. It was very encouraging to hear the big sheep men from the ranches of Southern Alberta say that the rancher who had shipped his wool every year to this organization had done much better than the man who shipped one year and sold the rest privately the next. Sheep men should not hesitate to patronize their own organization when they know they do so much for their wool. He said the last shipment of 250,000 pounds of wool to England meant a great deal in opening up new markets and advertising Canadian wool. Last season approximately 3,000,000 pounds of wool, worth in the neighborhood of one million dollars, was handled, and the prospects for 1928 prices were good.

Cecil Stobbs, of McCreary, stated that the Dominion Government has removed some of the restrictions for exportation of sheep from the United States owing to the prevalence of the foot and mouth disease in England. Reports submitted by the representatives from the sheep provinces were all of a gratifying character, particularly that from the Maritime, where a total of 29,282 lambs sold for a total of \$195,164. Pure bred ram lambs sold for \$20 to \$25; shearing pure bred for \$25 to \$35; ewes, \$20 to \$30 and graders from \$10 up.

The receipts for the year were \$21,270 and expenditure of \$10,100. There is a balance of \$11,170. The record of registration shows 14,200 sheep of which 5,377 are Shropshires, with 3,743 Oxford Downs as the next in popularity. The total membership is 1,174 of whom 499 are in Ontario, 535 in Quebec, 53 in Manitoba, 53 in Saskatchewan, 104 in Alberta, and 11 in the United States. Among the total importations during the year of 328, there were 125 Shropshires, 60 Suffolk, 10 South Down, 58 Romney, 3 Cheviots, 13 Black Face, 1 Leicester, 10 Rambouillet, 14 Merino.

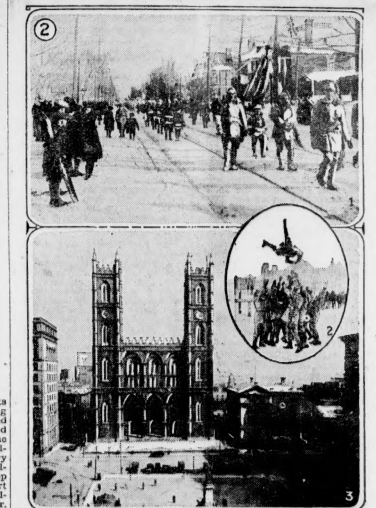

The following officers were elected: President, Victor Sylvester, Ste. Hyacinthe, Quebec; vice-president, John Wilson, Inverness, Alberta; secretary-treasurer, H. W. Wade.

It was decided to hold the next meeting in Quebec.

Palestine produced less than 800 tons of wool in the past year, and all of this is to be used in the making of carpets.

"Now, Max, give the little girl a kiss. Don't be shy, go on!"

"Leave him alone! He will do it spontaneously later!"—Magendorffs Illustrier, Munich.

WORLD HAPPENINGS BRIEFLY TOLD

The visit of Their Excellencies Viscount and Lady Willington to the Pacific coast will take place later in April.

Repairs destined to prop up the famous Leaning Tower of Pisa will be undertaken shortly under the supervision of the Ministry of Education and Fine Arts.

Commander C. T. Beard, R.C.N., will command the "Campanile" and Lieut.-Commander H. R. Agnew, R.C.N., the Vancouver, the two new Canadian cruisers.

The population of British Columbia in 1926 was estimated at 568,000, according to the annual report of vital statistics for that year, tabled in the Legislature.

Hon. Gerald William Lascelles, brother of the Earl of Harewood and uncle of Viscount Lascelles, husband of Princess Mary, died recently in his 76th year.

Richard Kearton, noted naturalist whose writings and photographic close-ups of birds and animals are widely known, died at his home in Surrey, England, aged 60.

Inauguration of a Federal subsidy to railways for carrying Canadian coal from British Columbia to Ontario and Quebec is sought by Charles Woodward, London, Vancouver, in a resolution moved in the Legislature.

The Moscow municipal council and other authorities are considering the launching of a "bicycle loan." The proceeds would provide large masses of Soviet citizens with reasonably priced home-made bicycles.

Secretary of War Davies has announced he will not accept the offer of Lindbergh to refrain from all stunt flying as his life is too valuable to aviation and the country. He will not ask Lindbergh to give up flying altogether.

Japanese to the number of 470 were admitted to Canada during the fiscal year 1926-27. Of this number, 115 were adult males, 250 adult females, and 110 children under 16. This information was given in answer to a question in the House of Commons.

Roan's Famous Hot Springs

The hot springs near Roan in Rocky Mountains National Park, Alberta, are among the most important of their kind to be found in the American continent. The total flow of the five chief springs is about 40,000 gallons per hour or approximately 1,000,000 gallons per day.

Lots—Meet me at the station at 6 o'clock.

Bill—Fine. What time will you be there?

ASTHMA STANDARD REMEDY

Protecting B.C. Fruit Crop

Counter-Parasites Are Being Imported Into Orchard Regions

Drug fight will begin this season to protect the Okanagan fruit crop from destruction. Counter-parasites are being imported into the orchard region in a campaign to decimate the codling moth and sawfly.

The counter-parasites, according to E. R. Buckle, provincial entomologist at Vernon, will be obtained from Wenatche, Wash., the United States government having offered to co-operate fully with the British Columbia authorities. Parasites imported to the codling moth and sawfly have done effective work in the past, although they have to be handled with a great deal more care because of the danger of introducing secondary pests with them.

Unless the codling moth is suppressed, growers fear that it may bring about destruction as extensive as in the state of Washington, where the pest was introduced in 1918. It has cost \$3,000,000 in 1926. Eight hundred carloads of apples were classified as culled in the Yakima district for same reason.

Pleased With Visit

Kellogg Says Ottawa Visit Was Most Enjoyable He Ever Spent

Secretary of State Frank B. Kellogg, on his return to Washington, from his visit to Canada, said he enjoyed his visit more in the past. Speaking of his reception at Ottawa, the secretary said that while Canadian hospitality was plentiful, the manner in which it was received by the government-general, Viscount Willington, the prime minister, R. H. W. L. Mackenzie King, and other officials and members of parliament, had been beyond his anticipation. The secretary was particularly impressed by the Archives building at Ottawa, which he thought was one of the most interesting exhibits in the world.

FACES ACROSS THE SEA

Image of Woman Transmitted By Television For First Time

Time

New words were opened up when faces were flashed across the sea by television in a way which was never known before by Jules Verne in all his fanciful imagination. For the very first time the image of a woman was sent across despite the fact she left her position in front of the transmitter a few seconds to glance in a wall mirror to make certain her hair had not become mussed in the excitement.

The first woman to be transmitted by television was a young woman named Mrs. John L. David, inventor of the television. She had had difficulty in finding a woman willing to attempt it at all for twenty minutes or half an hour. The transmission was accomplished from Baird's Television laboratories in London, direct into the receiving station at Hartsdale, New York, which had been rigged up for the occasion.

Baird himself was the first before the transmitter. Afterward, Mrs. John L. David, wife of James H. David, of the London Press, was associated for half an hour. Reports came back from the United States that Fox was showing up well. Mrs. David, wife of James H. David, of the London Press, was associated for half an hour. Reports came back from the United States that Fox was showing up well.

"I was delighted," Baird said, "to see a woman's face transmitted as far as the subjects on the screen were concerned. These are merely try-outs of the television possibilities of the near future."

"It was the greatest thrill of my life," Baird said, "to see a woman's face transmitted as far as the subjects on the screen were concerned. These are merely try-outs of the television possibilities of the near future."

"It was the greatest thrill of my life," Baird said, "to see a woman's face transmitted as far as the subjects on the screen were concerned. These are merely try-outs of the television possibilities of the near future."

Many Mothers Recommend Them

Baby's Own Tablets Are Fine For Nervous, Sleepless Children

From Canada the fame of Baby's Own Tablets is spreading over the world. Mothers recommend them to their friends, and they are heard for these pleasant looking little tablets that promptly relieve the nervous ailments of young children.

Baby's Own Tablets are one of the best remedies for children's ailments I have ever used," says Mrs. Arthur T. Allen, of Auburn, Me. "My little girl was nervous and could not sleep. I tried the Tablets and she was happy at once. She was also troubled with constipation and nothing seemed to help her. I had used the Tablets but a short time before her bowels were so regular that I could not keep Baby's Own Tablets in the house for they are a valuable remedy for all children's ailments."

SUNDAY SCHOOL LESSON

FEBRUARY 29

OTHER MIGHTY WORKS OF JESUS

Golden Text: "Thy faith has made thee whole."—Mark 9:24.

Lesson: Mark 9:24-28.

Devotional Reading: Ephesians 3:14-21.

Explanations and Comments

I. The Triumph Of Love Over Power. Jesus, who had just reached the western shore of the lake, after the events of our last lesson, Jesus, a ruler of the synagogue (perhaps of the one which had been built by the centurion of Luke 7:1-10), came to him and fell at his feet in supplication. "My little daughter (an only child, Luke 8:42), is at the point of death. I pray thee, that Thou come and lay Thy hands on her, that she may be made whole, and live." The ruler was a proud Pharisee, and we have seen how bitterly hostile to Jesus was the majority of the Pharisees. It had become by this time. No thought of what others said about Jesus debarred him from seeking Him, and no thought of his own station held him back from throwing himself in an attitude of worship at the feet of the Rabbi. There was no act of homage he would not render if only his beloved child might be restored to him.

There was no act of homage he would not render if only his beloved child might be restored to him.

The Triumph Of Love Over Power. Jesus, who had just reached the western shore of the lake, after the events of our last lesson, Jesus, a ruler of the synagogue (perhaps of the one which had been built by the centurion of Luke 7:1-10), came to him and fell at his feet in supplication. "My little daughter (an only child, Luke 8:42), is at the point of death. I pray thee, that Thou come and lay Thy hands on her, that she may be made whole, and live." The ruler was a proud Pharisee, and we have seen how bitterly hostile to Jesus was the majority of the Pharisees. It had become by this time. No thought of what others said about Jesus debarred him from seeking Him, and no thought of his own station held him back from throwing himself in an attitude of worship at the feet of the Rabbi. There was no act of homage he would not render if only his beloved child might be restored to him.

SUBSTANTIAL CUT MADE IN INCOME AND SALES TAX

Ottawa.—Before packed galleries and an eager attentive House, Hon. J. A. Robb, Minister of Finance, submitted his fifth budget.

Last year Mr. Robb had a ten per cent. reduction in all personal income tax rates to announce. Recently he announced another ten per cent. reduction in income tax rates with exemption of \$500 to those supporting dependents over 21 years of age incapable of self-support on account of mental or physical infirmity.

He announced a reduction to eight per cent. in the tax on corporations. The present rate is 8.5 per cent.

He announced a reduction of 25 per cent. in the sales tax, bringing the rate down from four to three per cent.

He estimated his tax reductions would amount to \$100,000,000.

So far, Mr. Robb's taxation changes created little stir. But in all other respect they were of importance. The fact was general that he would announce a reduction both in the excise duty on cigarettes and in the import duty on liquor. But in neither case had Mr. Robb any reduction to announce.

Trade profiles cover a pretty wide field. Cottons, woollens and textiles come under review. There are changes affecting printing and publishing, food and horticultural products, making, aviation, mechanics' tools, the salt industry. There is a change in regard to the general application of the British preference tariff. Canada requires that imports, to enter under British preferential rates, shall be 25 per cent. Refined oil and materials. Mr. Robb proposes to double that percentage.

Reviewing the country's finances, Mr. Robb estimated that the present year ending March 31 next he would have a surplus of \$54,510,000. Deducting \$10,000,000 written off of surpluses to soldier settlers in 1920, Mr. Robb estimated his net debt reduction at \$25,000,000.

Suggests New Scheme To Secure Settlers

Sir Henry Thornton Advocates Right to Freight Rates to Obtain Funds

Toronto, Ont.—The raising of \$20,000,000 annually by increased freight rates on the part of the Canadian National Railway and the Canadian Pacific Railway, to be administered solely in the purchase of a vigorous immigration policy was the scheme which Sir Henry Thornton, chairman of the Canadian National Railway, outlined during a meeting at a dinner of St. Andrew's Masonic Lodge here. Sir Henry stated that if freight rates were increased on an average of five per cent. it would yield to both the C.N.R. and the C.P.R. an additional \$20,000,000 each year. "If both railways join in this raising that fund for the encouragement of immigration," he declared, "we would make infinitely more progress in the future than in the past."

The speaker stated that there were 200,000 experienced farmers who would come to Canada, if they had partly prepared farms waiting them. "We can bring these 200,000 experienced farmers here and other hundreds of thousands of boys and men from the motherland," he declared. "That represents the kind of thing on which we ought to spend our money."

Will Represent Canada

Lieut.-Col. Vander On Advises Committee of League

General.—The League of Nations has been officially informed by the Ottawa Government that Lieut.-Col. G. P. Vander will represent Canada on the permanent advisory committee of the League of Nations for military, naval, and air questions.

As a member of the council, Canada has the right to this representation and will play an important role in the forthcoming disarmament negotiations here.

Says Flight Not Hazardous

St. Louis, Mo., Jan. 25.—The statement of Secretary of War Davis, to request him to stop all stunt flying, Colonel Charles A. Lindbergh replied he was perfectly willing to sacrifice his life if he should happen to be killed in the work he is doing. "I don't consider flying in the sense that I have taken unnecessary risks," he said.

Budget Summary

Some Details Of The Budget Presented By Mr. Minister Of Finance

Ottawa.—Here are the high lights of the budget presented to the House of Commons by Hon. J. A. Robb, Minister of Finance:

Tax Reductions.—Income tax, ten per cent. reduction in personal income tax. Tax rate on corporations cut to six per cent.

Under the new income tax schedule, \$500 exemption will be allowed for mentally or physically incapacitated persons over 21 years of age.

Sales tax: Twenty-five per cent. reduction, i.e., rate cut from 4 to 3.

All tax reductions are effective Feb. 17, and reduction in income tax applicable to taxes payable on income for last year.

Tax Reductions: Cottons, natural reductions in large range household cottons. Rates lowered on yarns. British preference on woolens.

Woolens: Duty reductions on nits and all but more expensive lines of underwear, socks, stockings. Yarns for weaving free. Preferential duty reduced on woolen goods imported in gray for dying and finishing.

Linen: British preference rates for general reduced. Re-classification of lines of flax and jute products.

Textile machinery: On large part imported free. Preferential duty reduced from 10 to five; intermediate, 10 to 5.

Reductions in duty on press blankets, rubber calender cloth for road treating, non-alcoholic preparations for disinfecting, etc.; crude petroleum for refining free till July 1, 1921; rates on parts for fishing boat engine reduced; nickel chromium for making electric resistance wire free.

Duty per cent. on material used in manufacture of various tools when at least 50 per cent. of production cost incurred in Canada.

Fifty per cent. on material used in aeroplane engines. After July 1 no drawback allowed 40 per cent. of cost of product if incurred in Canada.

Present duty on aircraft engine extended until July 1, 1920.

"These Alberta railways are not on the action block and in future we are not going to peddle them from place to place," said the Premier, "and the time is coming rapidly when all railways will be handled by the great transcontinental lines."

The answer of the Government to the Canadian National's offer for the Alberta and Great Western Railway would be that this offer is not satisfactory.

Premier Borden sounded a rallying cry to the House of Trade, newspapers and all organizations in the province desirous of bringing about a successful solution of Alberta's railway problem. He stated that the province desirous of bringing about a successful solution of Alberta's railway problem should stand together and co-operate toward the desired end. He pointed to what Manitoba and Saskatchewan had done by united effort in achieving their goal in regard to the Hudson's Bay line, what British Columbia had done in regard to the P.C. and G.E. and what the Maritime and been able to accomplish in Maritime rights, and asserted Alberta could bring about a satisfactory solution to the railway problem if all stood together.

Ontario's 11-year-old Island Viceroy, who was killed in action while serving with the Grenadier Guards in the Great War.

Impires About Kinsman Bled

Ottawa.—Copies of all correspondence and other documents pertaining to the bank of relations between Canada and Soviet Russia are requested in a motion placed on the order paper of the House by A. Heaps, Labor, Winnipeg, North.

Motor Cars Purchased

Ottawa.—Four hundred and sixty-one motor cars have been purchased by the Federal Government for its various departments since January 1, 1920, according to a return table in the House of Commons.

Soldier Settlers' Lands

Re-Evaluation Results In Many Reductions Being Granted

Ottawa.—Seven thousand eight hundred and eighty-six soldier settlers have applied for the re-evaluation of their lands under the act passed at the last session of Parliament. It was shown in a return table in the House of Commons. Of these applications only 18 have been dealt with.

These were in Saskatchewan and a reduction of twenty-two and a half per cent. was granted.

The annual report of the soldier and settler board also tabled shows that since the inception of the scheme \$100,000,000 has been loaned to soldier settlers. The outstanding indebtedness of the settlers is \$78,000,000. The sum of \$18,000,000 has been repaid plus \$4,000,000 interest.

One thousand and fifty soldier settlers have discharged their debts. Last year during the collection period ended June 30, of the amount due was collected and the board reports that collections have shown a notable improvement.

Alberta will refuse offer for railways

Edmonton, Jan. 25.—The Province of Alberta should receive the replacement value of the Edmonton Dunvegan and British Columbia and Central Canadian Railway, the Premier declared today.

Canadian Farmers

In Edinburgh

Visitors From Canada, Honored At A Dinner At Which Lord Elgin Was Present

Edinburgh.—Canadian farmers now touring Scotland were honored in a unique fashion at a dinner in Edinburgh at which Canadian National Railway officials were hosts, when a Scottish agriculturalist, W. A. Wilson, Governor-General of Canada, sang a famous Scotch ditty to the immense applause of the Canadians. The earl was Lord Elgin, whose illustrious grandeur was attested by the populace in an historic event in Montreal, and the present earl, recalling the incident, caused great amusement by declaring that among the prized mementos at Broomhall were two pieces of grouse which had been thrown at the Governor-General.

At the conclusion of the earl's speech and song, the Canadians gave him three rousing cheers. The dinner was the occasion for gathering together some of the most brilliant of Scotland's agriculturalists. W. A. Wilson, agricultural representative for Canada in Britain, was chairman, and Lord Elgin there was present.

Mr. Robert Craig, president of the Scottish Board of Agriculture, and known as the "friend of Canada," Dr. Crew, director of municipal hygiene, research department, Edinburgh University; Archibald Macneil, secretary of the Clyde House Society; John Strickland, secretary to the Highland Society; C. Westraal, secretary Scottish Board of Agriculture; Professor Robert Wallace, Professor Ernest Shearer, head of the Faculty of Agriculture, Edinburgh University; Robert Pars, owner of the "Broomhall" house, "Broomhall," Agin; John Geddie, Edinburgh architect; Dr. Savage, formerly of Winnipeg.

Masses Harris Buys U.S. Plant

Quebec, Jan. 25.—The J. I. Case Plant was purchased by the U.S. Government, and which since its inception in 1876 has developed into a million-dollar plant, was sold to the Masses Harris Company, Ltd., Toronto, it was announced at the Case Company offices. No announcement of the consideration was given.

Masses Harris Buys U.S. Plant

Quebec, Jan. 25.—The J. I. Case Plant was purchased by the U.S. Government, and which since its inception in 1876 has developed into a million-dollar plant, was sold to the Masses Harris Company, Ltd., Toronto, it was announced at the Case Company offices. No announcement of the consideration was given.

Some wise dentist has discovered that had teeth and humanity are closely related. Logical. We can remember being almost crazy with a toothache. Now we look for someone to use insanity as a defence for murdering a dentist.

Look your implements over at this time of year. See what you need in the way of repair parts. Tell us well to the rest, and with genuine I. H. C. repairs, too.

B. M. Roberts says: "Now and then you'll eat a walk that causes you to think the cook would make a fortune in the tire repair business."

Congratulations Arnold

We got into this business to make money, but we have stayed in it by making satisfied customers.

"The plot thickens," said the old man as he sowed more grass seed.

Since our local bonspiel a lot of people are logical. We can remember being almost crazy with a toothache. Now we look for someone to use insanity as a defence for murdering a dentist.

The manufacturers of cosmetics are advertising so much these days that a lot of our monthly publications have become regular powder magazines.

In Neutral—"There's something wrong. This gear shift doesn't work." That isn't the gear shift Jack, it's—or—its my knee.

Thumbs Crossed—The international idea of reducing armaments as a step towards peace seems to be for each and every nation to

have all the arms it would need in case it needed them. Frank Smith says he wouldn't think of treating wheat by any other than the copper carbonate method.

The best way to reduce they say is to shorten the slumber sweet; but how can desire lose in weight, with still more time to eat?

John Klein was in the other day and left us a power-flick, double disc drill.

As the radio announcer says our Service here the "Smile on your dial."

woman raise a family and have a career," which is the name of a recent article by this talented woman, Mrs. McClung says whole heartily, "yes."

No Need for Family to Suffer

"A woman can do other things while raising her family, and the family need not suffer, but she must have harmony at home. A woman can do many things, if she has love and loyalty, and I have had these in abundant measure in my own home and in my own family in all its branches, mothers, brothers, sisters, nieces and nephews. When I am home, after a campaign, whether I came 'with my shield or on it,' I have been received joyously, and we have had great fun over it. No woman could grow bitter, even when defeated, when she has a family like mine."

Written Nine Books

Mrs. McClung's career has been three-fold, that of a writer, a politician and a speaker. She came into the public eye first as an author, her first book, "Sowing Seeds in Doubt," having been published in 1908. Since then she has had nine books to her credit. Her second last book, "Painted Fires" won from the critics the praise that "the foreigner never had a better interpreter." This story, concerning the Canadianization of a young Finnish girl. It was translated into the Finn language and just recently Mrs. McClung has received a beautiful oil painting of a Finland scene from her foreign publishers. One of her short stories, "The Neutral Face," was mentioned in O'Brien's Collection of the Best American Stories of the Year.

M.L.A. For Five Years

Mrs. McClung has also won success in the political world, when for five years she was a member of the Alberta legislature. During that time she championed every law for the advancement of women and children. She was always considered a very fair critic of the government.

Mrs. McClung did not begin her public life until 18 years after she was married, and her family was well started.

Although born in Ontario, she came west when she was six years old and has lived here for 48 continuous years. Tickets for her lecture, "The Romance of Everyday Life," may be had from members of the P. T. A. and at the door of Campbell's hall on Monday evening, Dec. 27th.
